

Why Webtrol?

Companies turn to us when they are:

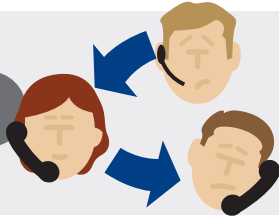

1 Tired of waiting weeks to get the pump they needed yesterday.

We **dominate** the market in pump lead times.

2 Fed up with getting passed around hoping to get someone knowledgeable to help.

Talk to a knowledgeable, **caring** person every time you call.

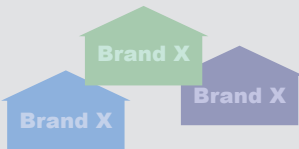

3 Aggravated with unreliable pumps that fail prematurely.

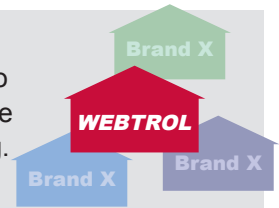

Feel **confident** that every one of our industrial pumps is performance and electrically tested.

4 Sick of trying to sell the same pump as their competition.

We selectively target markets to ensure our core customers have a **unique** product offering.

5 Irritated because their current vendors know nothing about the pumps they are selling.

Rest **assured** one of our highly trained sales or customer support team members will find the right pump for you.

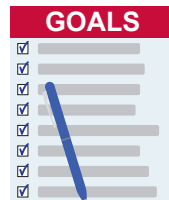

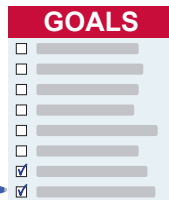

6 Frustrated with not getting any answer to their issues.

Quick and thorough answers keep our customers **satisfied**.

7 Unable to achieve their goals because they just have vendors.

Successful companies have *partnered* with us for over 40 years.

There when you need us most
